Join IFAC, EFAA for SMEs and Accountancy Europe, in collaboration with the IAASB, to discuss the new ISA for LCE and how some European countries are looking to use it!

In December 2023 the International Auditing and Assurance Standards Board (IAASB) published the *International Standard on Auditing for Audits of Financial Statements of Less Complex Entities*, known as the ISA for LCE. The ISA for LCE is a standalone global auditing standard designed specifically for smaller and less complex businesses and organizations. Built on the foundation of the International Standards on Auditing (ISAs), audits performed using this standard provide the same level of assurance for eligible audits: reasonable assurance. The standard is effective for audits beginning on or after 15 December 2025 for jurisdictions that adopt or permit its use.

This 90-minute webinar, organized by IFAC (the International Federation of Accountants), EFAA for SMEs (the European Federation of Accountants and Auditors for SMEs) and Accountancy Europe, in collaboration with the IAASB, will highlight the main aspects of the

ISA for LCE and then present case studies on how some European countries are planning to use the standard. Participants will have an opportunity to ask questions.

Confirmed speakers include:

- Kai Morten Hagen, IAASB Member and Chair, Task force for LCE
- Jasper van den Hout, Director, IAASB
- Isabelle Raiche, Senior Manager, Standards Development & Technical Projects, IAASB
- Iwona Warzecha, Senior Financial Management Specialist, World Bank
- Helene Agélii, Secretary General and CEO, Nordic Federation of Public Accountants (NRF)
- Inge van Beveren, Deputy Secretary General, Institute of Registered Auditors (IBR-IRE)
- Paul Gisby, Director, Professional Services, Accountancy Europe
- Salvador Marin, President, EFAA for SMEs
- Christopher Arnold, Director, IFAC
