## C- Exercises

## Exercise I (10\%)

Calculate the net borrowing cost that should be capitalized as part of the cost of the new store and the finance cost that should be reported in the statement of profit or loss for the year ended 31 March 2018.

The effective rate is $7.5 \%$ so the total cost for the year ended 31 March 2018 is $\$ 750,000$ ( $\$ 10$ million $\times 7.5 \%$ ).

Capitalisation commences from when expenditure is incurred (1 May 2017) and must cease when the asset is ready for its intended use (28 February 2018); in this case a 10 months period.
However, interest cannot be capitalised during a period when development activity is suspended; in this case the two months of July and August 2017. Thus, only eight months of the year's finance cost can be capitalised $=\$ 500,000(\$ 750,000 \times 8 / 12)$.
The remaining four months finance costs of $\$ 250,000$ must be expensed.
According to IAS 23 interest earned from the temporary investment of specific loans should be deducted from the amount of finance costs that can be capitalised. However, in this case, the interest was earned during a period in which the finance cost were not capitalised. Thus, the $\$ 40,000$ interest received would be credited to profit or loss and not to the capitalised finance costs.

July Exam 2018 - KEY
In summary:

|  | $\$ 000$ |  |  |
| :--- | :--- | :---: | :---: |
| Profit or loss for the year ended 31 March 2018 |  |  |  |
| Finance cost (debit) | $(250)$ |  |  |
| Investment income (credit) | 40 |  |  |
|  |  |  |  |
| Statement of financial position as at 31 March 2018: |  |  |  |
| Property, plant and equipment (finance cost element only) | 500 |  |  |

## Exercise II (10\%)

Calculate the amount of research and development expenditure to be recognized as an expense in the year ended 31 March 2018.

The following costs should be written off:

|  | $\$$ |
| :--- | :--- |
| Building depreciation $(200,000 \times 4 \%)$ | 8,000 |
| Wages and salaries research staff | $1,750,000$ |
| Equipment depreciation $(30,000 \times 50 \%)$ | $\underline{15,000}$ |
|  | $\underline{1,773,000}$ |

## Exercise III (15\%)

Describe how Delta should treat the above impairments of assets in its financial statements at 1 February 2016 and 1 March 2016.

According to IAS 36 - Impairment of assets, An impairment loss relating to a cash generating unit should be allocated on the following basis:

- First to any obviously impaired assets
- Then to goodwill
- Then to the remaining asset on a pro-rata basis;
- But no asset should be written down to less than its net realizable value

Delta has acquired the car taxi business having a carrying value of $\$ 190,000$ for $\$ 230,000$ which implies the existence of goodwill on acquisition for 230,000-190,000 $=\$ 40,000$.

On 1 February 2016, and due to the theft of three vehicles, Delta has incurred an impairment loss of $\$ 45,000$ (as per the facts), the loss to be allocated to the CGU elements as follows:

July Exam 2018 - KEY

|  | Carrying Amount | Impairment Loss |  | New Carrying |
| :---: | :---: | :---: | :---: | :---: |
|  | \$ | Calculation \$ | Amount \$ | Amount \$ |
| Vehicles | 120,000 |  | $(30,000)$ | 90,000 |
| Taxi License | 30,000 | No impairment | - | 30,000 |
| Goodwill | 40,000 |  | $(15,000)$ | 25,000 |
| Trade Receivables | 10,000 | No impairment | - | 10,000 |
| Cash | 50,000 | No impairment | - | 50,000 |
| Trade payables | $(20,000)$ | No impairment | - | $(20,000)$ |
|  | 230,000 |  | $(45,000)$ | 185,000 |

On 1 March 2016, as a result of the rival taxi operator, the CGU's recoverable amount has decreased to $\$ 150,000$ which is lower than its carrying amount ( $\$ 185,000$ as calculated), therefore, Delta has incurred an impairment loss of \$185,000-\$155,000 = \$30,000, to be charged to the statement of profit or loss for the period with the loss to be allocated to the CGU elements as follows:

|  | Carrying Amount | Impairment Loss |  | New Carrying |
| :---: | :---: | :---: | :---: | :---: |
|  | \$ | Calculation \$ | Amount \$ | Amount \$ |
| Vehicles | 90,000 | No impairment | - | 90,000 |
| Taxi License | 30,000 |  | $(5,000)$ | 25,000 |
| Goodwill | 25,000 |  | $(25,000)$ | - |
| Trade Receivables | 10,000 | No impairment | - | 10,000 |
| Cash | 50,000 | No impairment | - | 50,000 |
| Trade payables | $(20,000)$ | No impairment | - | $(20,000)$ |
|  | 185,000 |  | $(30,000)$ | 155,000 |
